

ROHAN KAMBLE

Ph No: +44 07586554298 | E-mail: rohankamble03work@gmail.com | Farnborough, UK | [LinkedIn](#)

Data Analyst with MSc in Data Science and hands-on experience in product analytics, experimentation, and large-scale data analysis. Proven ability to translate complex datasets into actionable insights, influencing product decisions and business performance. Experienced in SQL, Python, and Power BI, with a strong focus on KPI optimisation and data-driven decision-making.

TECHNICAL SKILLS AND STRENGTHS

- Analytics & Experimentation (A/B Testing, KPI Design)
- SQL, Python (Pandas, NumPy), SAS
- Power BI, Tableau, Excel (Advanced)
- EDA, Statistical Analysis, CRISP-DM
- Funnel & User Behaviour Analysis
- Stakeholder Communication & Insight Storytelling

EXPERIENCE

SolvoSky

Analyst (Business Intelligence & Insights)

Remote, India

Feb 2025 – Present

- Used SAS and SQL to interrogate 1M+ row datasets, improving data accuracy by 25% through validation and reconciliation checks.
- Produced weekly and monthly MI/insights packs and maintained a 3-6 KPI dashboard in Power BI and Excel, supporting decision-making across 5+ stakeholders.
- Reduced manual reconciliation effort by 30% by automating Excel checks and standardising reporting templates.
- Analysed conversion funnels, identifying 2–4 recurring drop-off drivers and delivering targeted recommendations.
- Delivered ad-hoc analysis within 24–48 hours for time-sensitive queries, while managing multiple.

HiTechSkills

Data Analyst Intern

Pune, India

March 2022 – May 2022

- Conducted quantitative analysis on multi-source datasets; built Power BI and Excel reports to track KPIs and performance metrics.
- Performed data validation and reconciliation; presented findings to non-technical stakeholders through concise dashboards.
- Supported ad-hoc analysis requests, translating business questions into structured analytical insights.
- Presented findings clearly to non-technical stakeholders using concise reports and dashboards.

Cling Multi Solutions Pvt. Ltd.

Software Intern

Pune, India

November 2019 – May 2020

- Supported system analysis, testing, and documentation in an Agile environment; collaborated in daily stand-ups.
- Collaborated with cross-functional teams in daily stand-ups to identify recurring issues and improve system reliability.
- Assisted in documenting requirements and validating system outputs against business expectations.

PROJECTS

Loan Approval & Risk Analysis

University of Surrey, Guildford, UK

Sep 2024 – Jan 2025

- Analysed 20,000+ loan records to identify risk drivers; developed analysis-ready datasets and commercially relevant recommendations.
- Conducted exploratory and quantitative analysis to assess risk patterns and decision bottlenecks.
- Developed clean, analysis-ready datasets and translated insights into commercially relevant recommendations.

MSc Dissertation – Detecting Depression in Reddit Posts (NLP & ML)

University of Surrey, Guildford, UK

Sep 2024 – Sep 2025

- Designed an end-to-end analytical pipeline on 2.47M+ records with statistical evaluation, calibration, and threshold tuning.
- Applied statistical evaluation, calibration, and threshold tuning to ensure decision-ready outputs.
- Focused on interpretability, robustness, and responsible use of insights rather than model complexity

EDUCATION & QUALIFICATION

University of Surrey

MSc Data Science

Guildford, UK

Sep 2024 – Sep 2025

Key Modules: Practical Business Analytics (67%), ML & Data Mining (67%), Database Systems (72%), Cloud Computing (76%)

2:1 Merit

SPPU University

B.E. in Computer Engineering

CGPA: 7.03(First Class)

Pune, India

2018 – 2023
